Result Sheet

Well, we managed to get a complete event on the F11. After various problems in the last year or so I feel rather relieved. It was a reasonable day but not a super day with some excellent times recorded. Road works in the area caused me a bit of a headache, with the roundabout near the start being re surfaced the night before the event and diversions on various local roads being in place on the day. Fortunately they used asphalt rather than chippings and the diversions did not affect the actual course though there was rather more traffic than usual on the start slip road.

The vast majority of the non-starters contacted me with their apologies. Several people have medical conditions that mean they cannot cope with the heat. Several people were unable to ride due to pressure of work. That point does emphasize that for most people this is a hobby that has to be fitted in with a busy life style and there are factors, such as the need to earn a crust, that have to take preference.

A big thank you is due to all those who helped in getting the event together both on the day and in the period leading up to the event.

In the Back Office. Jim Burgin, Geoff Perry and Paul Thompson, who all provided valuable assistance.

Timekeepers. Bob Clark was originally booked as a timekeeper but at present he is not too well. Please join me in thinking of him and wishing him a speedy recovery. John pick stepped in at short notice and some inconvenience to help out. Mick and Marion Fountain swapped roles between timekeeping and doing the results due to the high temperature.

Helpers. Janet Harris, Dave Bengier, Malcolm Ash, Gerry Vece, Derek Reynolds, Bryce Taylor and Ian Brazier all provided assistance on the day. Without them there would have been no event. Also a special mention must be made of two people. They rode in the event and then spent the rest of the afternoon in the heat marshalling, namely Gill Reynolds and Richard Moule.
