Well, the weather was playing a few tricks, cloudless sky when I was putting out the signs then a bit of rain while riders were warming up. It was dry at start time, but there was a brief, very brief shower during the event that lasted less than two minutes that didn't even make the road damp.

As for the results, well that is a story of "two halves", we had plenty of riders with PB"s (LTS) and commiserations to the riders who equaled their LTS PB or almost hit it (there were quite a few within 3 seconds). Then there were the others riders who thought it was a "so-so" night & felt it was off the pace. Congratulations to Red Walters for winning with a 19:43 & beating his previous PB by 01:28.

Lastly thank you to all the riders who used a "decent" rear light, with cars using automatic headlights it easy for a rider to get lost in the vision out there. Once again, thank you for supporting our events
